

Announcement on the Timelines for Registering Operation-K Participants and Admin Account Request Process

Dear Heads of Contingent,

Warm greetings from SaeManGeum! Many thanks to all Contingents who were able to confirm their deposits as per the agreed timelines. By meeting these targets, the Host has been able to allocate resources and open up participation to even more Scouts from around the world. Considering the many challenges that some of our NSOs are facing in their registration process and confirming their Contingent size, the decision has been made to extend the Operation-K registration. In the Scout spirit of solidarity, we are pleased to offer this extension to all WOSM members to register their Operation-K participants.

As previously announced, Scouts from every country should have the opportunity to attend the 25th World Scout Jamboree. To ensure as many Scouts as possible have opportunity to attend the 25th World Scout Jamboree, regardless of their social or economic circumstances, the solidarity fund has been established called Operation-K. 10 people will be invited by Korea Scout Association (9 Scouts and 1 Adult Leader) from each participating NSO.

(Previous Deadline) 31 October 2022

(Final Deadline) 30 November 2022

Note

Each contingent should register their Operation-K participants through the online registration system. Please confirm the number of youths (maximum 9) and 1 leader and they must be included in your Contingent Registration.

- List of Operation-K participants and option(A or B) for obtaining methods for flight tickets must be selected and registered in the system.
- If passport and flight information is not available until deadline, please put “0” as an alternative and revise it later for an optimal registration process.
- There will be no further extension on deadline and thus the registration must be done until the proposed date to be the beneficiaries of the solidarity project.
- Operation-K participants can only be registered with an Administrator’s account. Keep in mind to apply for it by sending an application form to reg_platform@scout.or.kr.

Additionally, a revised Circular#6 is attached to this mail with the correct information of the tent size shown in the Table.
